

A COST EFFECTIVE PRODUCT IS NOW AVAILABLE TO ADDRESS H₂S ISSUES ACROSS YOUR OPERATION. USE IT TO IMPROVE SAFETY, INFRASTRUCTURE PROTECTION AND REGULATORY COMPLIANCE.

CHAINBREAKER H₂S C

CAN SOLVE
YOUR PROBLEM

CHAINBREAKER H₂S C is a specially formulated non-pathogenic bacterium compound that is designed to target the Sulfur in oil and gas applications. By capturing the elemental Sulfur within the cell body of the microbe, H₂S levels within oil/gas/water can be effectively reduced.

PROPERTIES:

- Dry Powder
- Concentrated
- Long Shelf Life
- Multiple Species
- Non-Hazardous

BENEFITS:

- Targets Sulfur
- Reduces H₂S
- Hydrates Quickly
- Easy to Apply
- Improves Safety

APPLICATIONS:

- Production Wells
- Waterfloods
- Storage Tanks
- Pipelines
- Slop Oil Treatment
